

Nene Valley Partnership

Excellence in Education

Opportunity to join the Trust Board of the Nene Valley Partnership

The Nene Valley Partnership, our small multi-academy trust, is currently recruiting for up to three new trustees. This is as part of our succession planning, and also to ensure that we continue to have an expert trust board, with a range of professional experiences and backgrounds.

We are keen to hear from any potential trustees with experience in education – particularly those from a senior leadership or safeguarding background. We would also welcome trustees who have commercial experience in estates management and/or health and safety.

The Nene Valley Partnership Trust Board is the body which holds senior leaders to account for all aspects of educational, financial and regulatory performance and compliance. The role is a rewarding and varied one, with induction provided.
